I Love Portage

I have lived in Portage my whole life and I love it here! I love how peaceful the libraries are and I think it is super that they have their wonderful summer reading programs to keep kids reading even when they are not in school. Also, I think Portage has outstanding biking trails for everyone to enjoy, my dad and I love to go biking on the trails and I am very thankful we have them in our lovely town, Portage. Another thing I love about our superior town is the mall, it has so many great features and many stores I am thankful to have in our town because some towns don't . One other thing I love about our town is how we all beautify it with gardens and flowers it really makes Portage look elegant to every visitor that comes to our town. I also love our superior soccer complexes like AYSO, Kingdom, and Soccer Zone they always play fairly and are good sports and I am very glad we are able to have such wonderful complexes. My other reason I think our town is spectacular is because I think Portage Public Schools are fortunate to go on such inspirational field trips like Miller Auditorium or Sherman Lake Camp and our teachers put such effort in everything they do for us kids. After living in Portage my whole life, I still can't believe Portage is so extra ordinary!
