Quarterly Curbside Brush Collection Schedule Adjusted Based on Predicted Snowfall

The January Quarterly Curbside Brush Collection schedule will be accelerated based on predicted snowfall over the coming days. The long-term forecast predicts a significant amount of snow in the next two weeks. In an attempt to collect as much brush as possible before the snowfall, city crews will begin to collect brush in Zones 3 (southeast zone) and Zones 4 (northeast zone) immediately. Residents in Zones 3 and 4 are encouraged to place brush and Christmas trees (free of tinsel and decorations) at the curb as soon as possible.

Crews will return to these zones to collect any remaining brush during the regularly scheduled weeks of January 21 (Zone 3) and January 28 (Zone 4). The Oakland Drive Compost Facility will also be open for Brush Drop Off Day on Saturday, February 2 from 8 AM – 12 noon.

Questions concerning the Quarterly Curbside Collection Program may be directed to the Department of Public Services at 329-4444.
