

I Love Portage

Portage Michigan is a valuable town. It provides many activities for you to enjoy. The ones that I enjoy most of all, are the Portage District Library, the Ramona Park, and best of all, the Air Zoo. Those are the activities that I enjoy

The Portage District Library is a great place to read, read, and read. It's books provide imagination and knowledge. The Portage District Library offers peace and tranquility, if you don't consider a baby squalling. If you don't have a computer at home, I would go there. They also have great movies, and video games. I would recommend that for book lovers.

Another activity that I enjoy, is going to the Ramona Park in the summer. You can wade in the water, and feel the smooth sand between your toes. The Ramona Park gives you the option to go in the water, or go to the playground. If your lucky, you can find a turtle. I found one myself!

What I really do prefer out of all of the activities here in Portage, is going to the Air Zoo. It has many enjoyable rides, but the one that thrills me the most, is The Flight Simulator. It kind of flip-flops your stomach, but it depends on how you control it. It's worth it anyway. In the gift shop, they have a lot of souvenirs, like magnets, and best of all, astronaut ice cream!

Portage Michigan is a wonderful community, full of wonderful things you can do.
