

Elise Dimick

Fourth Grade

Portage Central Elementary

I remember the first day I drove into Portage. I was so thrilled about our new house. I got really excited when I saw all of the creeks and fields and woods with trails. I couldn't wait to start exploring, hiking, and fishing. But I got really astonished when I saw the Portage District Library. The first weekend in my new house I went to the Library. I checked out like 12 books that day, and the people were really nice there. They helped me whenever I needed them. I will never forget the day I came into Portage because it was awesome!

The next season came, it was fall! In Portage the leaves are so beautiful. It is always nice because there is always a nice cool breeze and the crisp leaves underneath your feet. It always gives me a nice and safe feeling. The next thing you know it is winter! Winter is my favorite in Portage because there is always Christmas decorations on the light poles and the Christmas songs going to town. But my absolute favorite thing to do in Portage in the winter is ice skating. I love how they play the Christmas music while you are skating. My family and I go there every year as a tradition, and I am the one who is always looking forward to it the most! Then it is spring! I really like spring in Portage. All of the plants in Portage are starting to bloom, and it is so beautiful. But I really like summer the most. All of the ice cream shops are in really good condition and the people are nice but most of all their ice cream is delicious. And so I really like all of the seasons in Portage!

The citizens in Portage are very nice too. A lot of people greet you with a smile when you walk in the door. I really like the citizens in Portage they make it feel like Portage is a great and safe place to be, and it is! I am really happy to live in Portage with all of the nice people. And the schools are even better! I go to Central Elementary and it is the best school you can go to. I think the schools in Portage are awesome!

Last but not least, Portage is a great, safe, and peaceful place to be. If people who are reading this and do not live in Portage, you should really move here it is awesome and amazing! Well this is why I love Portage, my home.
