

Brandon Theobald

Dear Mayor Strazdas,

I Love portage! They're are so many things I love about portage that this would be 10 pages long. There's stuff in portage like the beautiful environment, they're are so many trees, Parks, Lakes, playgrounds, and a lot more. Also the environment here is kept clean from trash on the ground. There is nice places to ride bikes around. The parks are so awesome in portage. The beautiful environment is not like anything i've ever been to.

Another reason I love portage is that the community is amazing here and there's many people that are so nice. There is also people in portage that help keep portage safe like police, firefighters, doctors, and there's many more things, that's why i feel safe in portage. Also in portage I love that most of the people here are nice like neighbors, friends and the rest of the community is friendly the portage community is unlike any community I have ever seen.

I also Love the entertainment places in portage. There's so many things that i love that's right in portage because in portage there's stuff I love like the air zoo, the parades, the movie theaters, the bounce places, the playgrounds, camps, the awesome stores to buy cool things, the awesome restaurants, the parks, the bike trails, the lakes for fishing, the libraries to read books at, and many more fun things I love to have fun at in portage.

I even love the restaurants in portage because there's so many that's it's hard to choose the place we want to go to because they're are always so many. Another thing I love about the restaurants is their food also I like that some restaurants in portage have events. I even love that they aren't so far away. The food trucks here are also something I really love because there's many of them. The food trucks food is always fun to eat.

The final reason I love portage is portage in general this is the best town I have ever lived in.

That is why I love portage so much, The End

Sincerely: Brandon Theobald
