

My Family Loves Portage

My opinion is that Portage is a great place to go to the library, see nature, and buy houses. I wish I can live in Portage my whole life. Now I'm going to tell you why.

First I'm going to tell you why I like the Portage Public library. I like their books because if you're having a bad day you can read a book for free. I also like the computers. You can research something for school. Maybe you don't have a computer at home. That's why I like the Portage Public library.

I also like all of the nature. One reason I like the nature is because I like the lakes that Portage has because you can go water skiing and do much more fun things that include water. Another reason I like nature is because of the trees. In some places there aren't enough trees. The last thing that I like about the nature in Portage is Celery Flats. The reason I like Celery Flats is because you can go bike riding and running to get exercise. That's why I like nature in Portage.

Next I'm going to tell you why I like houses in Portage. Most of the houses have basements for tornados. They also give you protection. When it is cold outside in the winter Portage puts warmth in our houses so we stay warm. You can also put food in your houses. That's why I love Portage's homes.

I love Portage because of its Portage Public Library, nature, and homes. I wish I could live in Portage my whole life.
