

## NEWS RELEASE

FOR IMMEDIATE RELEASE  
March 22, 2014

Contact: Richard Palmer  
Battalion Chief  
269-329-4491

At 8:35 a.m. on March 22, an employee opening Borics at 6749 S. Westnedge noticed a haze and the smell of smoke inside the store and called 9-1-1. Two fire engines, a truck company, and a battalion chief responded with a total of eight personnel. The first engine company on scene reported smoke in Borics, but could not find the source. As personnel searched adjacent occupancies, a fire that had consumed a bathroom in Hot Nails was discovered. The fire was out at this time but had left smoke residue throughout the business and inside Borics.

Borics closed for the day pending cleaning and odor removal. Hot Nails was closed indefinitely until clean-up and repairs could be made. The incident is under investigation and will be referred to the Fire Marshal and Building Inspector. Fire units cleared the scene at 10:21 a.m.
