

FEBRUARY 10, 2012

ADDENDUM #1

PAVEMENT LINE STRIPING & SPECIALTY PAVEMENT MARKING

In accordance with the pre-bid meeting held February 8, 2012, the following changes and clarifications have been made to the request for bids:

- Changes

- 1) The reference to night, street line painting is removed from requirements for both the City of Portage and the City of Kalamazoo. The successful contractor will work with the project managers to determine the daily painting schedule – night painting will not be required for the street line division of this bid package.
- 2) Certification of paint will not be required to be turned in with bids. Certification will be required prior to application of paint.
- 3) The bid date has been postponed to February 23, 2012. Bids will be due by 3:00 p.m. on Thursday, February 23, 2012.

- Clarification

Units of measure will remain as presented in the original request for bid. As a point of clarification, white and yellow skip painted lines shall be paid based on a unit price per mile. The unit price per mile will equal the length of road traveled and not the length of actual skip line painted.

All other terms, conditions, and specifications remain unchanged. If you have any questions regarding purchasing procedures or specifications, please contact Judy Johnson, City of Portage Purchasing Manager at 269 – 324-9284.
