Portage Road Closure at I-94 West Leg of Kilgore Road to East Leg of Kilgore Road

Portage Road will be closed for the setting of I-94 bridge beams starting at 8 PM on Friday, December 10 through 5 AM on Monday, December 13. The closure is part of the Michigan Department of Transportation I-94 interchange improvements at Portage Road and will begin at the east leg of Kilgore Road (formerly known as Kilgore Service Road) and end at the west leg of Kilgore Road. The work is weather dependent and any additional closures will be scheduled for the following weekend.

City staff worked with MDOT to change their original detour route to East Milham Avenue to Lovers Lane to East Kilgore Road in order to avoid holiday shopping traffic on South Westnedge Avenue.

For more information, please call the Department of Transportation & Utilities at (269) 329-4422.
