\$150.00 MAJOR STREET PERMIT FEE

RIGHT-OF-WAY USE APPLICATION and PERMIT FORM

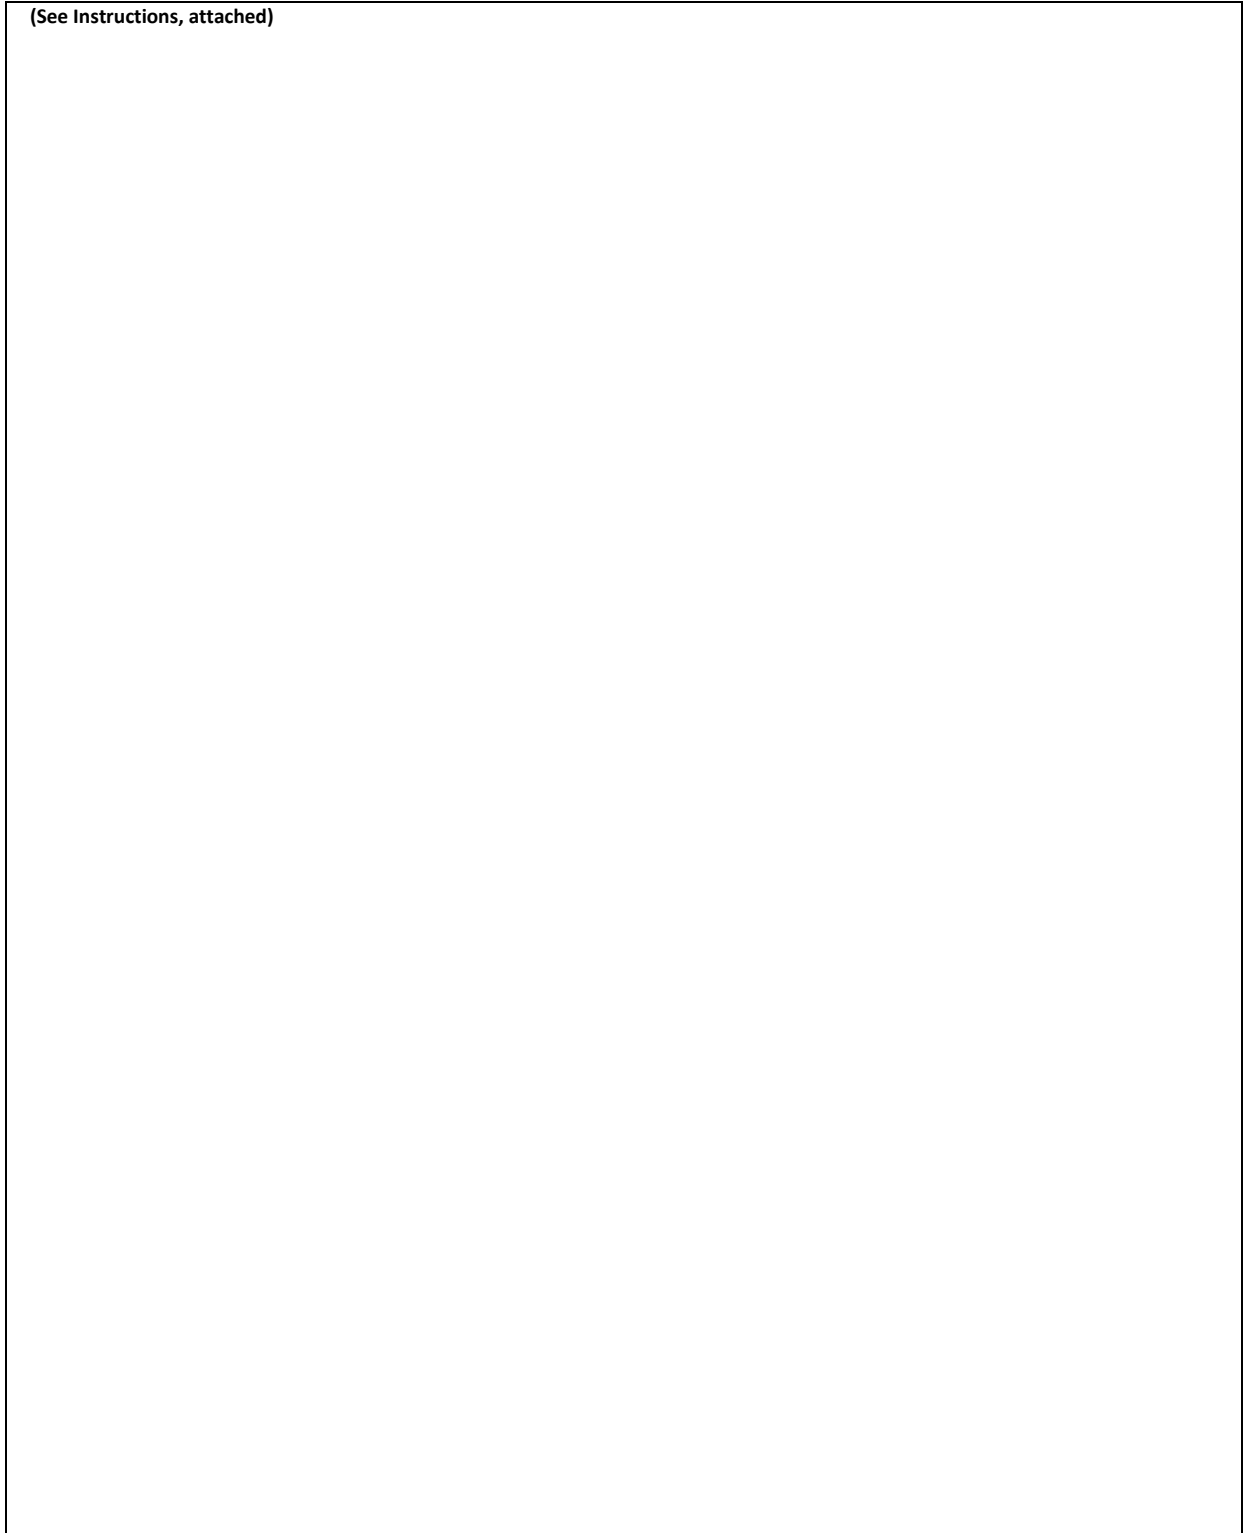

Attachment: SKETCH PLAN

Note: A sketch plan is required for all Standard Use Right-of-Way Permits. The applicant may use this form or attach a labeled sketch plan. The sketch plan must include the following information as pertinent to the review of the application:

1. Property addresses, lines, dimensions and known monuments.
2. Location, dimensions and recorded easements, if applicable.
3. Location and dimensions of driveways, sidewalks, driving lanes and parking spaces.
4. Proposed driveway grades shall be indicated both within the public right-of-way and between the property line and the front of the building.
5. Locations of existing and proposed utilities, including water, sewer, fire hydrants, underground electric, gas, phone, cable and fiber optic infrastructures, where applicable.
6. Show the topography as it relates to the right-of-way construction such as adjacent slope for cut and fills, soil stabilization, or retaining walls. (Any retaining wall or system of retaining walls greater than four (4) feet must be engineered, if applicable.)
7. Identify the proposed storm water management measures as related to the existing and/or proposed drainage facilities.
8. Proposed method of erosion control and soil stabilization.

Right-Of-Way Sketch Plan Site Location: _____

**SPECIFICATIONS FOR OPEN CUTTING AND EXCAVATION
OF THE CITY STREETS AND SIDEWALKS**

1. All work in the City Right-of-Way requires a Permit issued by the Department of Transportation and Utilities. A permit shall be obtained seventy-two (72) hours in advance of work unless an emergency exists.
2. All Contractors and Subcontractors must be insured and bonded, meeting the following requirements:
 - a. Worker Compensation Statutory
 - b. Comprehensive General Liability \$1,000,000 Combined Single Limit (including sub-contractors)
 - c. Comprehensive Automobile Liability \$1,000,000 Combined Single Limit (Injury and Property Damage)
 - d. Umbrella or Excess Liability \$2,000,000

Additionally, a pavement repair bond of \$5,000/occurrence shall be paid in cash or a surety.

3. No work shall commence within the Right-of-Way limits unless proper safety measures (ex. barricades, cones, barrels) are on the job site.
4. Based upon the sketch provided, the Department of Transportation & Utilities will dictate the number and type of barricades necessary to properly protect the job site and provide the recommended MMUTCD traffic control configuration.
5. All openings in paved surfaces shall be in accordance with Standard Detail SD-165.
6. All backfill in pavement area shall be Class II, as defined in the City of Portage Contract Conditions and Specifications.
7. All granular backfill material shall be placed in 12" lifts maximum and compacted with a vibratory compactor.
8. Concrete mix shall be 5-1/2 sack per cubic yard. All aggregate shall be limestone or slag material.
9. Restoration of street shall conform to the original street surface and subsurface conditions.
10. Restoration of the curb lawn shall consist of a minimum of four (4) inches of processed top soil and seeded with a class "A" mixture with 12-12-12 fertilizer.
11. All questions regarding the permit process shall be directed to the Department of Transportation & Utilities at (269) 329-4422.
